

DOUGHERTY IS MAKING READY

Peoria Banker Will Claim Technicality In Election Of The School Boards.

THINKS THAT THIS WILL SAVE HIM

Legal Quibbles To Be Played Strong By His Attorney^s In Seeking His Release From The Charges Brought.

Peoria, Ill., Oct. 17.—Charging that all school elections for the last nineteen years have been illegal, that Peoria has not properly had a board of school inspectors during this time and that every cent spent on school improvements and teachers' salaries was illegally appropriated, the attorney for N. C. Dougherty, the defaulting banker and school superintendent, claims that they have good grounds for a defense. Working on this theory, the attorneys say they will put up a hard fight when the indicted school superintendent is brought to trial.

More definite rumors are being given out concerning the probable action of the federal grand jury, and it is now said that if the present body does not get to the investigation of the officials of the failed Peoria National bank a special grand jury will be called. Judge Betha and District Attorney R. W. Childs of Chicago were present at the opening session of the United States court Monday, but because several grand jurors missed their trains little was accomplished.

Say Elections Were Illegal.

For the last nineteen years the school elections have been held in the month of April, and it is said that this date was changed from November, contrary to law. It is on this contention that Dougherty and his attorneys are said to base their hope of escape from the 140 indictments which have been returned against the former school superintendent. In this connection Judge J. C. Pinkney gave an opinion as follows:

"There is nothing in the amendment act that operates as a repeal of the special charter creating the Peoria school district for the reason that

under the terms of our school charter in order for the act of 1885 of the general school laws to operate as a repeal, alteration or change, the general act of 1885 would necessarily have to refer specifically to our special charter. No such reference being made, it is my opinion that the old charter is in force."

Mr. Pinkney, however, said that in his opinion the courts would validate the acts of the boards that had held power in the last nineteen years on the ground of public policy.

School Act in Outline.

The act of the legislature passed in 1869 created a school district embracing all territory in Peoria, creating a body politic and corporate to be known as the "board of school inspectors of the city of Peoria," to which it gave perpetual existence. The statute states that "all following elections for such inspectors shall be held on the first Tuesday after the first Monday of November of each successive year."

Although the exact date of the changing of the school elections from November to April is not known, it is supposed to have been either in 1886 or in 1887, shortly after the passing of the state act.

It is the opinion of attorneys that, even if the elections were illegal, the fact would not affect Dougherty's case, as he is responsible as an individual, if not as superintendent of schools.

Apparently alarmed at a strong display of Bailey sentiment and threats of political ostracism, the mass meeting of independents, which was called for Monday night to urge the resignation of O. J. Bailey from the school board, was postponed suddenly. It was to have been a ward meeting, and there is some talk of concentration for the purpose of taking definite action.

MURDER TRIAL FOR MILLIONAIRE'S SON

Medical Doctor Charged with Responsibility of Child's Violent Death by Poison.

[SPECIAL TO THE GAZETTE.]

Chicago, Oct. 17.—Dr. Oliver Hart, son of A. B. Hart, the St. Louis millionaire, was brought into court today from the county jail hospital in the continuation of his case upon the charge of murder. Dr. Hart is charged with killing 10-year-old Irene Klow, a wait from an industrial school, whose father is a patient in an insane asylum. The child was given to the Haris from an industrial school at Evanston, Ill. Dr. Hart admitted that he gave the child bromide chloral, stating that he gave her at least forty-five drops in his futile effort to resuscitate her after she had swallowed a large number of sugar-coated morphine tablets, thinking that they were sucharine pills. According to a physician, the bromide given the child was a substance known as "knockout drops." Hart has a wife sixteen years old. His father will defend him to the limit.

Convention Will Discuss Congressional Bill That Will Prohibit It in District of Columbia.

[SPECIAL TO THE GAZETTE.]

New York, Oct. 17.—The annual convention of the National Liquor Dealers' Association opened here today at Madison Square Garden, in connection with the National Bottlers' Association. One of the most important matters to be brought before the convention will be the so-called Webber prohibition bill for the District of Columbia. The bill was introduced in the last session of Congress and provides for prohibition throughout the entire district. Representative Amos Webber of Ohio, claims that he has enough votes to pass the bill. The convention was to have been held at New Orleans, but was transferred because of the yellow fever epidemic there.

POOR M'CURDY MAKES VERY FEEBLE DEFENSE

Is Bitterly Arraigned by the Prosecuting Attorney in Insurance Probe.

New York, Oct. 17.—The insurance investigation was resumed this morning. The associate counsel produced the cable reports from London, Paris and Berlin making ridiculous statements that President McCurdy of the Mutual's assets exceeded the assets of the banks of England, Germany and France. The combined assets of these banks exceed the Mutual's by nearly two billion dollars. A leading official of the bank of Germany was paid \$30,000 a year and of England \$10,000. Hughes produced letters of policy holders refuting the claims of the Mutual in advertisements. McCurdy combated them and when pressed into corners by the merciless questions of the attorney, constantly replied: "Call the actuary; he will explain."

Awful Tales of Barter Of Young Women To Become Playthings Of Cruel Orientals In Interior Of Country.

[SPECIAL BY SCRIPTS-M'RAE.]

Chicago, Ill., Oct. 17.—The local immigration bureau disclosed today the facts that forty-nine American girls have been sold into slavery in the Chinese harems. Most of them are lost to civilization and can hope for no release save by suicide or death, being helpless prisoners in the Chinese interior towns subject to the whims of Mandarins, who are able to purchase them through the connivance of a woman, whose identity is well known to government officials. The dealer who delivered the girls into slavery resides in Chicago and has a woman confederate in Shanghai, who is also known to the government secret service agents. The bureau revealed the facts after receiving a complaint of the sale of Louise Miller of Montreal to an agent of a Chinese official in Shanghai. Other evidence indicates that Eva Campeau, Maggie Drouin and (Continued on Page 8.)

REFUSES TO PAY FOR HELP AND DIES AS THE RESULT

Illinois Horseman Dies Because He Thought He Was Being Bled By Physicians.

St. Louis, Oct. 17.—Rather than pay \$200 for a surgical operation, which he was advised would save his life, J. W. Denton of Bloomington, Ill., a well-to-do horseman, died at the Missouri Baptist sanitarium Monday from injuries received by being kicked by a horse at the horse show Saturday.

Dr. A. C. Bernays, a well known surgeon, is authority for the statement that he could have relieved Denton by performing an operation. He said he offered to perform the service for less than half his usual fee, and that the offer was refused, though the patient was assured that he was seriously hurt and that only an operation would save his life.

Dr. Bernays' statement is corroborated by Dr. F. M. Floyd, his associate, who was first called to see Denton. The patient was then in a room at a hotel, and Dr. Floyd told him that an operation should be performed. The patient demurred and said he did not feel that an operation was necessary.

Objects to \$200 Fee.

When Dr. Bernays was called he examined Denton and declared that an operation was necessary if the patient's life was to be saved. Denton asked what the service would cost and Dr. Bernays replied that his usual fee was \$500. Denton declared that he could not afford such a fee.

"Perhaps the Horse Show association will pay it," suggested Dr. Bernays.

Denton was 47 years old. He was well known to St. Louis horsemen and all over the country. He was formerly an exhibitor at the St. Louis fair. He had recently exhibited at Indianapolis and at the state fair in Springfield. He made a specialty of training saddle horses and was an expert equestrian. Besides his widow he leaves one son.

TALE OF HORROR THAT HAS THE OCEAN FOR SCENE

Fearful Plight Of Seamen Who Were Wrecked During a Sever Gale. Six Died.

[SPECIAL BY SCRIPTS-M'RAE.]

Boston, Mass., Oct. 17.—A story of a north Atlantic shipwreck—in which eight seamen suffered so fearfully from exposure, hunger and thirst that six of them either died outright, were washed away or, crazed by their fearful experience, threw themselves into the sea—was told by the two survivors of the coasting schooner Vannam and King of New Haven, which was beaten to pieces by a gale off the South Carolina coast on Oct. 6.

The two men who lived through the five days and were rescued by the schooner Stillman F. Kelly, which arrived here late Monday, are William Thomas and William G. Warner, both about 29 years old, 6 feet 3 inches tall, and hail from Antigua, British West Indies. The six who, one by one, succumbed were: Capt. William A. Maxwell, New Jersey; Mate E. A. Chase, unknown; engineer, a German, name unknown; colored steward, name unknown; colored seaman, William Grizzell and Alfred Arthur, both of Jamaica.

Vessel Springs a Leak.

The Vannam and King, which has been plying up and down the coast since 1886, left Charleston, S. C., for New York on Oct. 2 with a cargo of hard pine. Two days later she ran into a heavy gale and after wallowing about in the great seas for several hours, sprang a leak.

That night the storm increased in fury and one great wave crashed aboard, breaking both legs of Seaman Arthur and sweeping Grizzell from his fastenings. On Saturday the schooner turned completely over and it was several hours before they were all huddled together on a little raft. That night Arthur died in the arms of Capt. Maxwell.

Signal of Distress Unheeded.

Sunday brought a ray of hope when a craft was sighted, but the gloom shut in again as she passed by without heeding the signal of distress.

That night Mate Chase's mind gave way entirely and he jumped into the sea. The next victim was Capt. Maxwell, who, on Monday afternoon, became violently insane and followed his mate's example of self-destruction. The German engineer a few hours afterward also leaped to his death. The last victim was the colored steward, who died Monday night.

The rescue took place off Cape Lookout. The Kelly arrived here Monday afternoon, but the seamen were still too exhausted to land.

SPRIT OF GRIM DETERMINATION

PREVAELS OVER STUDENT BODY AT MADISON.

LITTLE EXPECTED OF "VAN"

Wisconsin Captained Considered a Weak Spot That Will Not Last Long in Chicago Game.

[SPECIAL TO THE GAZETTE.]

Manison, Wis., Oct. 17.—The old Wisconsin spirit of "fight to the last ditch," which helped the Badgers out of many a tight place on the western gridiron, which has apparently lain dormant for the last two years, and for which Football Coach Phil King has been pleading at Madison, seems to have returned, and the university is alive with enthusiasm in prospect of the Chicago-Wisconsin game at Camp Randall next Saturday. A week ago King, Holt and the whole crew were in the dumps. Today the prevailing spirit, if not one of confidence, is at least the better spirit of grim determination in the face of a crisis. The students are putting up great enthusiasm this week. Whenever a football player is seen in the college halls it is the occasion of a personal ovation. A thousand or more of the men students are wearing a cardinal ribbon band around the hat, and even the coeds have taken up the fad in the wearing of becoming artificial chrysanthemums of cardinal.

Cheer the Cardinal
Two or three girls in cardinal autumn coats have been surrounded by throngs of students and cheered. Each afternoon the university band is assembled at the gymnasium and from 1,000 to 1,500 singing, chanting, students march to the practice field at Camp Randall nearly a mile away. The march is begun late enough so as to get the largest number of rooters and not arrive at the field early enough to interfere with the daily secret practice. At Camp Randall the variety yell and a variety of special songs are practiced for a time and when the men are lined up for work in team formation yells for the individual players are given as each makes a meritorious showing. This has a good effect on the men and they all seem to put more energy and care into their work. Phil King does not look so worried as he did a week ago, and Assistant Coach Holt is less irritable.

Hunt On Hospital List
The only bad hospital feature is the sprained ankle of Hunt, who would play right guard in shape. He is better than either Gelbach or Bleyer, the other two candidates for the place, and it is hoped that he will be able to appear the remainder of the week. Captain Vanderboom is as good as he will be for the Chicago game. He is in the line at left half-back in the signal practice this week, but is not seriously expected to last long Saturday. In fact a peculiar sentiment exists as to the Badger captain. The fact that he did not appear on the field for work from the Marquette game until last week, and then only for light signal practice, causes the critics to have a poor opinion of him, and it is openly declared that the sooner he gets out of the game with Chicago the better it will be for the hopes of Wisconsin. However, this is just the treatment that may be counted upon to make "Van" brace up and he may surprise the critics. Should he fail to make a good showing it will be surprising, for with Kemp, Berke, Donovan and Deering to open holes in the line for him, and the interference of ex-Captain Bush, Findlay, Roseth and Meizer, it will be almost impossible for him not to shine.

"Saving" the Players
King is not working the Badgers especially hard this week. Realizing that the Chicago game will be a terribly wearing contest, the head coach upon consultation with Trainer Kraenzlein, has concluded to save the men as much as possible during the final week. Long drills in signal practice are being held, with work every night in the gymnasium, also drilling on signals. The early afternoons are

Free Pile Cure.

INSTANT RELIEF, AND A QUICK, PAINLESS CURE BY THE MARVELOUS PYRAMID-PILE REMEDY.

A Trial Treatment, Just to Prove It, Is Sent Free to Every One Who Sends This Card to the Address Below. We are sending out thousands of trial packets of Pyramid Pile Cure, absolutely free and at our own expense, to sufferers of piles, because we have such absolute confidence in it, and its past success has proven its wonderful virtues. Pyramid Pile Cure gives instant relief, as a sample will show. It stops congestion, restores normal circulation, heals sores, ulcers and irritated spots with great rapidity, and cures the cause of piles without fail, in every case. No surgical operation is necessary for the cure of piles, because Pyramid Pile Cure will cure without cutting. An operation makes matters worse, hacking to pieces the delicate muscles which are relied upon for a satisfactory and permanent cure. Pyramid Pile Cure is put up in the form of suppositories, easy to use, and applied directly to the affected parts. It requires but a small amount of treatment, as a rule, to produce a cure, if directions are carefully followed. After you have tried the trial treatment and found it satisfactory, as you will, you can get a regular-size package of Pyramid Pile Cure at your druggist's for 50c. If your druggist hasn't it, send us the money and we will forward you the treatment. Send your name and address for the treatment at once and we will send you same by return mail, in sealed plain wrapper, on receipt of your name and address. Organized Rooting
The followers of the Chicago team will meet some fancy organized rooting Saturday, great preparations being in progress here for the "noise-producing" department of the game. The engineering department students are preparing a special stunt with a combination of recently patented whistles. It may be impossible to have them on the grounds, but the thousand shrieker will be anchored just outside of the Camp Randall fence.

HIGH SCHOOL TEAM WILL LAY OFF TO WITNESS THE CHICAGO-WISCONSIN GAME

Possibly a Contest With Milton Junction Will Be Played Here Friday Afternoon.

Owing to the Wisconsin-Chicago University football game at Madison Saturday, no contest has been scheduled for the local high school eleven by Manager Hammonson. Last year the players took a day off to witness the Michigan-Wisconsin game, but this week, if possible, a game will not be entirely skipped. Efforts are now being made to bring Milton Junction to this city for a game Friday afternoon. The teams are rather evenly matched, but Janesville on her home grounds and well supported on the sidelines should run up a far larger score than five, with which they were victorious last Friday. Several requests for games to be played on October 28, November 18 and November 25 have been received. It is expected that these dates will be filled and that plans for a trip to West Superior on Thanksgiving day fall through it is possible that a strong eleven can be brought to this city on that date.

FIRST WARD BADGERS TO CHALLENGE FOR LIGHT-WEIGHT CHAMPIONSHIP

Believe They Can Put Up Strong Fight Against Any Eleven of Equal Weight in Southern Wisconsin.
The First Ward Badgers, who have thus far been playing very successful football, will challenge for the light-weight championship of Southern Wisconsin. The average weight of the eleven is 123 pounds and they are willing to meet any team averaging between 115 and 130. Sunday on Bunker hill they met an aggregation from the Second ward and valiantly to the tune of 45 to 0. The features of the game were a thirty-yard run by Stadel, the line-backing of Cox and Buchholz and the end runs negotiated by H. Briggs. The teams lined up as follows:
Badgers (45) 2d Ward (0)
H. Briggs..... T. Heagney
L. McCarty..... J. Dancan
L. Lennon..... G. W. Keating
W. Springs..... P. Hasenauer
R. Briggs (Capt.)..... R. H. Flinn (Capt.)
R. Buchholz..... W. Helso
R. Cox..... A. Kruger
F. Boots..... E. Riley
F. Stadel..... S. Day
D. Linneman..... W. Hilder
Touchdowns—Cox 3, Briggs 4, Howland 2.

MYERS LEADER OF SOPHS IN TRACK MEET WITH THE FRESHIES THIS AFTERNOON

At Madison this afternoon is occurring the Sophomore-Freshman University fall track meet. It is a sort of preliminary test of new material for running and all the high school proteges who have entered the state institution and the hopefuls of last season's Freshman layout are trying merits. The Sophs are led by Myers of this city. He is to run in the half-mile particularly and several other events and is expected to save the day against Parsons, the Coast athlete of note, Messmer and Springer, the interscholastic winners, and Wohlschlag and Quarrels. Myers will be assisted by Groves, Wreeland, Smith, Cooper, Schneider, Van Doren, Sylvestre and possibly Hasbrouck. Ride-out has been lost to them and Stevens is in Yale this year.

MERLE T. ADKINS IS TO PLAY WITH NEW YORK IN THE AMERICAN LEAGUE

Merle T. Adkins, who pitched for the local Y. M. C. A. baseball team for two seasons—that was in the day when the Association played baseball—has been drafted by Manager Griffiths of the New York Americans for next year. During the past season he twirled for the Baltimore nine and his victories, the string being almost unbroken, won for him a place on the great metropolitan team.

FORT ATKINSON RAN AWAY WITH LAKE MILLS HIGH

Fort Atkinson, October 14.—Fort Atkinson high school football team defeated Lake Mills today by a score of 55 to 0. Fort Atkinson simply overwhelmed their opponents and could have easily run up a much larger score. At no time did Lake Mills get within fifteen yards of their goal. The locals will play Sacred Heart college in this city next Friday. A complete schedule for the season is being made out. Janesville will be played in their city Nov. 4.

SECRET BALLOT ON FRANCHISE

NEW ORDER OF PROCEDURE IN-AUGURATED BY COUNCIL.

CENTER AVE. PROJECT LOST

Some Voted Against It Because Wrong Diagram Was Appended—Various Matters Passed Upon.

Something new in the matter of procedure was inaugurated at the council meeting last evening when the aldermen decided to vote on the two proposed railroad franchises by secret ballot. Alderman Jackson opposed the innovation and Mayor Hutchinson expressed some doubts as to its regularity, but it was adopted just the same. The measure permitting the C. & N. W. to lay an additional spur track over North Railroad street between Hyatt and Walker, extending in a southerly direction to the Hanson Furniture factory on the easterly side of said street was carried by a vote of 8 to 2. This franchise had been considerably altered by amendment from its original form. The other measure which would have permitted the same railroad company to lay a track on Center avenue alongside its freight depot was lost by a vote of 8 to 2. This latter measure might have passed had it not been for the fact that the blue-print appended to the said franchise did not show the alterations that had been made in the original request of the railroad company. Several were willing to permit the extension from a point on the south side of the Pleasant street crossing, but they would not agree to an extension from a point on the north side of the West Milwaukee street crossing, or thereabouts. In the latter case the railroad track would be much further out in the street. The North-Western railroad representative had left the council chamber and could not be consulted. Some of the aldermen wished to hold the matter over another meeting but the majority insisted on the vote and the measure was killed, much to the apparent satisfaction of several property-holders in the gallery.

Want Poles Off Boulevard McKee

Forty-five owners of property fronting on McKee boulevard submitted a petition that the small forest of telephone, telegraph, electric light, and electric railroad poles which are at present blocking traffic on that thoroughfare be removed—that the poles so situated between Rock river and the Choate-Hollister factory be taken out of the street and placed not more than twelve feet from the lot lines on either side. It was represented that these obstructions as now situated made the road dangerous to the steadily increasing travel and prevented the grading work so badly needed. Mayor Hutchinson referred the matter to the aldermen of the third ward and the same later asked for further time to consider it and consult with the city attorney. Some recommendation will probably be made at the next meeting.

Fifield Bros. Request Denied

By an order the chief engineer was authorized to sell the latest model horse for \$100 and its mate and the roan horse for the best prices he can get. The police committee recommended that the bids on the police horse be rejected and that the chief engineer be allowed to sell the animal for the best price obtainable. Recommendation adopted. Chairman Connell, reporting for the fire and water committee, recommended that the application of Fifield Bros. for permission to enlarge their frame shed on Wall street be denied. Members of the committee had viewed the premises and had come to the conclusion that such construction, being in violation of the fire ordinance, would be hazardous, and particularly so because the shed extension would be within 20 feet of the Reed residence. The council voted to refuse the application. The petition of the Janesville Machine Co. for permission to lay a 4-inch air pipe forty inches below the surface of River street, to cross that thoroughfare 24 inches south of the C. & N. W. tracks, was granted.

Sewer Work in District 5
The street assessment committee submitted a report on the total amount due Contractor M. J. Benson for the completion of sewers in District 5, as follows:
Certificates of Assessment, \$5,035.55
General Fund, 70.92
Sewer District Fund, 3,044.81
Total, \$11,151.28

Deducting the amounts due the city from the contractor for stone, the use of the roller, etc., the balance remaining was \$1,544.32. By an order introduced by Ald. Jackson the city clerk was instructed to draw on the

COMMUNICATION FROM PEOPLE'S DRUG COMPANY.

Offer to Refund Money if Hyomei Does Not Cure Catarrh.

To the Editor of the Janesville Gazette:
We have been asked recently if the advertisements printed in your columns regarding Hyomei were true, where we offer to refund the money if this treatment does not cure catarrh. We wish you would please print this letter in as conspicuous a place as possible in your paper, saying that we absolutely agree to refund the money to any purchaser of a Hyomei outfit if it does not cure catarrh.

This outfit consists of an inhaler of a convenient size to be carried in the vest pocket so that the user can breathe Hyomei four or five times daily. With this is included a medicated dropper and a bottle of Hyomei. The outfit sells for \$1.00 and is a most economical treatment, for the inhaler lasts a lifetime and there is enough Hyomei for several weeks' use, while extra bottles can be obtained for 50 cents. We trust this letter will settle any doubts that may have arisen as to our willingness to refund the money for a Hyomei outfit, in case the purchaser is not perfectly satisfied. Respectfully yours,

Another order authorized the transfer of \$5.90 from the fund of Sewer Dist. 5 to the general fund to correct an error in over-paying the contractor from the general fund account.

Sidewalks Ordered Built

Assistant Street Commissioner Thomas McKinnon recommended in a report that new sidewalks be built in front of the following described premises: lot 17 with four feet of lot 16, Willard's subdivision; lot 1, Mitchell's addition on N. Academy street; lots 15 to 23, inclusive, Smith & Bailey's addition on N. Franklin; lots 144 and 145 (except Reed's) Smith, Bailey & Stone's addition on N. Academy; lot 10 (except the north 50 feet) in block 1, Sinclair's addition on Court street; lot 16, Riverside addition on Western avenue; lot 7, block 17, Smith's addition on North street. The report was adopted. Brick crosswalks were ordered built in the following places: across Prospect avenue on the west side of Cornelia; across Cornelia on the north side of Prospect avenue; across Dodge on the west side of River; across Mineral Point avenue on the north side of West Bluff; across Adams on the south side of Pleasant. Ald. Dulin called for a report of the assistant street commissioner on the Kastner sidewalk. The latter stated that the walk in question was repaired after he had given it as his opinion that a new walk was needed and after the committee appointed by the city council had viewed the premises. No action was taken with regard to this rather irregular proceeding and Mr. Kastner appears to have the upper hand for the time being at least.

Work for Street Commissioner

E. R. Winslow was given permission to build a four-foot walk in front of his Logan avenue property. Instructions given the street commissioner call for the cleaning of the gutters on Center street between Academy and Cleary; necessary repairs on the east side of East Milwaukee street; crosswalks; the cleaning of the gutters on the south side of Pleasant street; the repair of the culvert across Pleasant street on the east side of Arch; the cleaning of Prospect avenue from Cornelia to Milton avenue; Cornelia, Caroline, and Wisconsin from E. Milwaukee to N. First; N. First from N. Main to N. Bluff; Fourth avenue from N. Main to N. Bluff; Peace Court from N. Main to N. Bluff. Ald. Connell called attention to the fact that the street commissioner some time ago had been instructed to serve notice on the Janesville Street Ry. Co. to repair the portion of the street between their tracks on East Milwaukee and that the company had never done so. The street commissioner informed the council that he had acted as directed. Ald. Connell offered a motion that the street commissioner proceed to the street commissioner proceed to the St. Ry. Co. Ald. Jackson suggested that that officer consult with the city attorney as to the legality of such proceeding, before doing so.

Definition of "Repairs"

Ald. Merritt offered the following resolution defining the word "repairs," as applied to streets, and the same was adopted:
"Resolved, by the Mayor and common council that the word 'repairs' whenever used in any order or other direction to the street commissioner in relation to the doing or performing of any work on any street, shall be deemed and understood to mean whatever is necessary to keep the street in a proper condition for the traffic thereon, having regard to the character and original manufacture of the street, and nothing further; it shall not mean the converting of the same into a macadamized street. Provided, however, that nothing herein shall be construed to prohibit the use of crushed stone for filling up holes or depressions in the surface of any street not paved or macadamized. That the city clerk be and he is hereby directed to serve a copy of this resolution upon the street commissioner."

Miscellaneous Business.

The usual report on bills was submitted and adopted. The resignation of George W. Phelps as manager of the detention hospital was accepted and the public buildings committee of which Ald. Murray is chairman was instructed to attend to the matter of closing up that institution and safeguarding it for the winter. A sidewalk grade on Cherry street from Holmes to North was submitted and accepted. The election of Charles Sutherland as a member of the fire and police patrol was confirmed. Health Officer McCarty was authorized to purchase 10 additional garbage cans for the city use. Permission was given the Central Wisconsin Medical Society to use the assembly room in the city hall on Oct. 31. The Lewis Knitting Co. was authorized to use a portion of the S. Second street sidewalk while installing a new boiler. City Engineer Kerch was called upon to furnish a sidewalk grade for Carlington st. from Main to Wheeler, also curb and sidewalk lines. Chairman Brockhaus of the committee on parks reported that the display fountains had been cleaned and were ready for the winter. He introduced an order that the fountains as well as the coverings be painted forthwith, and the same was passed.

TRAMP FOUND SLEEPING BESIDE RAILROAD TRACK

By Officers Brown and Benke—Was Too Much Intoxicated To Walk.

One tramp probably owes his life to Officers Brown and Benke. He was found sleeping in drunken slumber near the bridge approach to the upper railroad west and it was necessary to carry him away from the tracks. It is possible that he fell out of a box car that was brought in from the north.

Might Be Rattling Good Plan.

El Paso Herald: Germany is trying the experiment of making the lawyers liable for damages for giving wrong information to clients—that makes the position of the attorney on the losing side of a suit much more embarrassing, and gives the litigant a sort of dead open and shut. If he wins out, he collects off the other fellow; if he loses, he takes it out of his lawyer.

Fine Service Appreciated.
Rockford Register-Gazette: The administration of the Rockford, Beloit & Janesville Interurban road has won an excellent name for its accommodations for its patrons. Its cars are maintained as standards of good service. The growing business of the line the past year attests its standing in the community. It will be well received hereabouts if under the new ownership the present administration is continued. It has made itself an honor to the people it serves.

Eat Right and Feel Right.

Take Care Of Your Stomach and You Will Escape No End of Trouble.—One Perfect Food.

Some people resort to drugs for every little ache or pain—drugs which may stimulate but which cannot cure. In fact, there really is anything to be cured.

Many of the ills with which we are afflicted are due solely to eating the wrong kind of food, or eating too much or not getting enough exercise to properly digest what we do eat.

We can't abuse the stomach without paying a penalty. This penalty is most frequently indigestion, with all its accompanying distresses. Eat the right kind of food and you will not suffer.

And the right kind of food isn't medicine at all. It's a natural malted whole wheat food, Malta-Vita, the most delicious, the most satisfying food in the world, always fresh and crisp, containing every food element necessary for the sustenance and upbuilding of the body and the brain.

A perfect breakfast is impossible without Malta-Vita. Being a pure grain product it is rich in food elements of the best white wheat grown and the finest barley malt extract—intensely vitalizing and easy for even the weakest stomach to digest, just the food to begin the day with, and it's good three times a day.

I had been a sufferer from nervous debility and indigestion for several years, without any benefit or relief from various tonics and other medical prescriptions. Imagine my surprise when, a short time after beginning the use of Malta-Vita I became aware of its beneficial effects by the gradual disappearance of my long-standing ailment. Malta-Vita is incomparable in its nourishing, digestive and strengthening qualities and is deserving of the greatest praise.

P. Gersper, Barnesville, Ohio.
All grocers sell Malta-Vita at 10c per package. Try some with cream or fruit. You never tasted anything so good and you will be glad we told you about it. Ready to eat.

CURIOSITY.

Leads to Investigation and Truth.
What shall we do to be saved? was the title of one of Robert Ingersoll's lectures. People of faith and people of no faith flocked to hear it. Thousands are asking, "What shall I do to get rid of dandruff?" The answer is, "kill the germ that causes the dandruff, falling hair and finally baldness; and the only thing that will do it is Newbro's Herpicide. That is the very latest discovery of the laboratory, and it is the only preparation that claims to, or that will, kill the pestiferous dandruff germ. It also is a delightful hair-dressing, free from oil or grease or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich.

"An example easy to be imitated in its faults" is that of a store-advertiser who uses a page of space on one day and a quarter column on another—store expenses, in other directions being as great on one day as the other, and "necessary income" remaining unchanged.

What worries those insurance magnates is the fact they may have to give back some of that money.

A star base ball pitcher is just as sure of a job as is a Prima Donna of a grand opera company.

The czar has issued his call for a general Peace Conference to last until he gets a new navy and a new army.

There is a bit of question whether the petrified apples found in Colorado would not have made good hard cider.

Mr. Pfister will get a speedy trial according to the news papers—but it does not say what the "reform gang" will get.

The great post season games have been played and the championship of the different cities decided. Now for football.

New York republicans have nominated William Mills Evans for mayor. Poor Evans, it is a short path to fame and oblivion.

Chicago is wrecking its county building by contract and killing people by the scores without contracts by falling timbers.

Secretary Taft is a man for that Venezuelan question. In fact Taft is what might be called "A Handy Jack." Anything wrong send Taft.

Hereafter the auditors of a Peoria school board will take interest enough in their business to really look over the accounts they sign as O. K.

Peoria's hall of fame has a vacant niche. Perhaps Edgar Allen Poe might find a lodging place here even if New York has refused him.

It may help Mr. McCurdy and Mr. McCall to know that Jimmie Hyde is going to get his "trimmings" also. Misery always likes company.

Old Jacob Astor when he used to sign his fur accounts O. K. "all correct," little thought to what use that simple O. K. of his would be put to.

They say the Governor is coming back into the state long enough to tell what he is going to do. We doubt it unless he has not other engagements.

Milwaukee has its grand jury, its gambling, its indictment of business and now it has a disgusting will trial that has disclosed all sorts of skeletons.

Governor Cummins and Secretary Shaw are about to take their dispute to the Hague Tribunal for settlement and not resort to active warfare.—News Item.

Congressman Cooper is watching that Senatorial question. He is just as anxious to find which way the Governor is going to jump as are others of the same ilk.

Dewey is right regarding the young men in the navy but Dewey had cut his eye teeth and had shaved for many a year before he humbled the "Don" and knocked the "L" out of Manila.

Roosevelt has accepted the Czar's invitation to a general Peace conference. It is supposed that the fight in Iowa may be referred to the tribunal for their consideration.

Komura arrived in Tokio very quietly, was met very officially and escorted through lines of troops to visit the Mikado. Thus he is rewarded for having worked in the cause of humanity.

If the Governor decides to remain as Governor and can elect like Stephenson United States Senator no one can say again the United States Senatorship in Wisconsin is not bought and sold.

WHITTIER vs. POE.

The Madison Journal evidently thinks New England constitutes the whole world when it endeavors to ex-

plain why Whittier, not Poe, was placed in the hall of fame in New York. We all have to look back to New England and admire the early Puritan pluck, but there are other portions of this country that do more for this nation's welfare than does New England. Take, for instance Madison itself with a United States Senator, a governor who wants to be President, and a football team it deserves some credit. Whittier is a beautiful poet, but because New England homes all have copies of his works in the best parlors where people talk in whispers, the fire is never lit and the curtains only drawn on Christmas and Fourth of July it is no reason he should have had preference to the erratic Poe, the hot-blooded child of the South. The decision was a just one but the Journal's reasoning is decidedly obtuse.

WHERE THE MONEY GOES.

In spite of the fact that the nation is unusually prosperous the money market in New York is stringent, and rates of interest have materially advanced. Henry Clews, the New York banker sizes up the situation and explains where the money is being used. His letter, which follows, is well worth reading.

"There has been a tremendous drain upon our monetary resources during the last year or two for legitimate purposes, which is likely to continue for some time to come. Some measure of this is illustrated in the revival of new enterprises. For instance, since January 1 the new incorporations recorded in the Eastern States have amounted to \$1,332,000,000, compared with \$666,000,000 the same time last year. A wave of prosperity begets a wave of extravagance, which, in turn, begets a wave of speculation, resulting in a wave of high prices, which finally produces a wave of increased rates for money. There were never so many plans as now being shipped out of New York—an article in luxury usually only purchased on a large scale when times are good. Another evidence, produced by the same condition, was the immense travel abroad this summer. As a matter of fact, the scarcest thing to be found anywhere in this country at the present time seems to be poverty, as there is plenty of work at high wages for willing hands. The railroads are doing well; the shops are all doing well; labor is doing well, and people everywhere are living well, and the only exception to this reign of prosperity is the life insurance companies. A large portion of the funds going West will no doubt remain there, and the interior banks will find such active employment for their balances as to prevent their return to the East during the dull season. A succession of good crops, is making the interior exceedingly prosperous, so that conditions there are very favorable for the promotion of all sorts of schemes and enterprises—some of them of questionable character, and all of them likely to look up more money than usual in that section. In addition to these requirements Government and municipal enterprise of various kinds are likely to make themselves felt in the money market, so there is little or no immediate prospect of an abatement in the demand. Little relief can be expected at home. Secretary Shaw can probably influence deposits of a few millions of Government funds with the banks, but his power ends there, and we are still without an elastic currency system, which might adjust itself to new conditions. Nor is any material help in sight from abroad. A little gold has been imported, but Europe is already tightening her purse strings, and her prospect of another large Russian loan will tend to delay gold coming this way. Our big exports of grain and of other products would encourage gold imports and so lessening the necessity of bringing gold. It is quite evident that should the money market need much relief it can only be had through liquidation, and that would mean lower prices for stocks.

The general situation is exceedingly satisfactory. A bumper crop, the second largest wheat crop, and a good cotton crop is a combination of good fortune that is irresistible. Already there is a splendid foreign demand for these products and our foreign trade is now running upon another record-breaking scale. Some idea of the improvement in domestic trade is obtained from the record of bank clearings, which in the nine months ending September 30 amounted to \$103,600,000,000, an increase of nearly thirty seven per cent over last year. This is a most phenomenal exhibit, and is more due to the actual growth of business than to higher prices and speculation. Railroad earnings also continue to give indisputable evidences of national industrial activity by showing larger gross returns. Traffic is already beyond capacity, and some of the roads could employ almost double the number of cars. The record of mercantile failures is also assuring, the total for the same nine months being only \$76,000,000 against \$111,000,000 for the same time last year.

"While the future is distinctly one of promise, the present is not an opportune time for a rise, because (1) values have been too high; (2) money promises to be too dear, and (3) tariff and railroad agitation are too unsettling to permit any bull campaign. Congress will probably do nothing radical with either the tariff or the railroads; still the discussion will disturb confidence and encourage bearish operations. The outlook, therefore, is for sharp rallies when the market becomes oversold, but no general improvement until monetary and legislative conditions improve. Should these become more threatening we may look for lower prices, while, on

the other hand, a change for the better in these respects would be followed by a rising market."

PRESS COMMENT.

Real Value of Grand Juries.

Racine Journal: It is only too evident grand jury reports are mostly always only resultant of material for the newspapers. The courts go humph.

Where The Auto Fails.

Chicago Tribune: Germany's meat famine will reach an acute stage after the supply of horses has been exhausted. The people can't eat automobiles.

Still, Rose Pleases A Majority.

Milwaukee Free Press: The worst libel that could be published on Milwaukee is to charge it with an intention of re-electing its present mayor to a fifth term.

Joy In Petrification.

Chicago Inter Ocean: Colorado seems to be as much pleased over the discovery of petrified apples in that state as we would be over the discovery of something really new.

'Twas Mistake to Marry Him.

Madison Democrat: As age, merciless and irresistible, comes ever on the frolicsome Mrs. Taggart, with

character forever gone, may well wonder whether in truth it all paid.

Why Felons Have Deteriorated. Atchison's Kan. Globe: Perhaps the reason there are no good cats is that when a woman gathers up the kittens and decides which to save she always selects the prettiest.

Things That Are Unhappily Not. Milwaukee Sentinel: The frequency with which Governor La Follette does not tell his followers what he intends to do is only equaled by the satisfaction the followers do not feel when they consider the subject.

That Affectionate Mr. Heyl. La Crosse Leader-Press: That remarkable Mr. Heyl, who is fighting in the Milwaukee courts for a seven million dollar estate, made love, according to his own admission, to all the members of the Schandeln family except the son, Emil.

By Way of Precaution. New York Evening Post: A Mississippi newspaper, in warning the President against the danger from the yellow fever on his visit to the South, says that at Natchez, for example, the first "killing frost" of the year seldom comes before November 10. It might be wise, therefore, when Mr. Roosevelt goes to New Orleans in October, to send Vice-President Fairbanks on ahead.

Good Roads Still Afar Off. Shawano Advocate: First it was the bicycles that were going to help us get better roads. Now it is the automobiles. We believe the people will have to wait until the spirit moves the farmer, which will not be for ages in some localities.

People Seem to Want It. Evening Wisconsin: "Gingerbread Education" is the subject of a talk by State Superintendent Cary, scheduled in the exercises of the Northwestern Wisconsin Teachers' Association at Stevens Point. There is a good deal of "gingerbread" in education, and the teachers seem to like it; for if a majority of them were averse to the extra "fixin's" it is not likely that they would be troubled with them very long.

Freely But Not Free. Youth's Companion: "This question whether a word should have its adverbial or its adjective form seems to me to have little to do with the sense. Now what is the difference between loud talking and talking loudly?" "No difference," replied the pedagogical friend, "but look here; for a large fee you give legal advice freely; but you don't give it free. I think that will retain you for a while."

None On Earth, Certainly. San Francisco Chronicle: A lively dispute over the sex of angels is raging in church circles, and there is a strong disposition to frown down the idea that there are any of the feminine gender. Whatever may be the case in heaven—and nobody seems to have any definite information on the point—it is quite certain that all the angels on earth are girls or women. A male angel down below here is unthinkable.

NOW DAUGHTER

Said a sensible father:

"If you need a gold crown put on one of your broken down molars, what in Sam Hill is the use of paying a TEN-DOLLAR bill for it when you know as well as you know anything that by letting Dr. Richards do the work, you can get it for \$5, and the work will be ALL RIGHT?"

What?—Afraid? Afraid of what? Look here, didn't Mrs. W. B. Hough, 15 Pearl street, just yesterday say that he extracted a lot of her teeth without hurting? What's the use of talking? If he can do work without hurting for one person, he can for another.

Now you go right up and let him fix that tooth, and besides, I need that extra five dollars to put into that winter cloak you are teasing for now.

In purchasing a diamond ask your merchant the following questions:

IS IT WHITE?
IS IT ROUND?
ARE THE EDGES SHARP?
ARE THE FACETS EVENLY LAID?

ARE THERE ANY IMPERFECTIONS IN THE STONE?

The first and last are the most important, as the life of the stone depends upon the color and perfection. More than half of all the diamonds polished are set up in rings and a good share of these are used as engagement rings, as this stone, regardless of price, is the most popular of all the precious stones.

Owing to the advance in price of diamonds the market is flooded with imperfect "stuff," and now, more than ever, the purchaser must take the word and guarantee of the local merchant. Without a doubt the coming holiday season will be the largest in the sale of diamonds, that the trade has had for many years.

BELOIT GAS MEN
SELL INTERESTS

W. G. MAXEY, OSHKOSH, AND C. S. JACKMAN AMONG PURCHASERS

AN OLD ESTABLISHED PLANT

Was incorporated in 1856 with a Capital Stock of Nearly Seventy Thousand.

In the future Janesville and Oshkosh capital will furnish the gas light, heating and cooking apparatuses of the Line City residents. A transfer of the majority of the stock in the Beloit Gas Light and Coke company was recently made by which W. G. Maxey of Oshkosh, C. S. Jackman of Janesville and others have gained control of the concern.

Nothing Definite Beyond the fact that he had purchased some of the stock of the Beloit Company, together with Mr. Maxey of Oshkosh and other Janesville capitalists, Mr. C. S. Jackman refused to say anything definite regarding the transfer. I. F. Wortendyke, superintendent of the New Gas Light Company, says that he knows nothing regarding the transfer beyond the fact Janesville parties had purchased stock.

Not Known in Beloit The news of the transfer of the stock was not known in Beloit at noon today, although rumors that the Philadelphia owners of the majority of the stock had sold was current on the street. The Beloit company is one of the oldest in the southern portion of the state. It was incorporated in 1856 and has a capital stock of \$68,750. T. C. Hendley is president, J. L. Hendley vice president and W. A. Hendley is secretary and treasurer.

JOHN KEMMITT IS
CLAIMED BY DEATH

Succumbed Early This Morning to Complication of Stomach and Heart Trouble.

John Kemmitt, a well-known and highly esteemed resident of Janesville, who has spent the greater part of his life in Rock county, succumbed at an early hour this morning to a complication of stomach and heart trouble. He has been ill intermittently for nearly a year, but his last sickness has not been much more than of a week's duration. The deceased was born in Richmond, Walworth county, June 20, 1855. When still a boy he moved with his parents to Rock Prairie, Rock county, and there lived until 1872, when he came to Janesville. After the Chicago fire he went to the Windy city with his father and worked a year. On returning Mr. Kemmitt became mail messenger between the postoffice and depot. Later he secured the old star mail route between Milwaukee and Janesville. He drove the eastern end of this stretch of thirty miles over the old "Janesville plank road" out of Milwaukee to East Troy, carrying the mail and operating a stage line. After several years of this work he managed the Frank Smith stock farm and then became manager of the Nelson brothers' livery barn. A few years ago he left this position and took the contract for carrying mail between the postoffice and depot. There are left to mourn his death a mother, Mrs. Mary Kemmitt, who resides in Chicago with her daughter, Mrs. McCue; six sisters and two brothers—Mrs. James Gaffey of Iowa, Al T. Kemmitt and Harry Kemmitt of Janesville, Mrs. T. F. McCue of Chicago, Mrs. L. H. Bibbins of Beloit, Mrs. R. T. Carroll and Mrs. E. B. Johnson of Chicago; four sons and a daughter, Geo. Kemmitt and Harry Kemmitt of Chicago, and Ray, Leo and Ida, who live at home. Funeral services will be held at half-past nine Thursday morning from St. Mary's church, of which the deceased was a member.

JANESVILLE LOSES OFFICIAL HARBINGER OF SPRINGTIME

Tom Butler, Colored Porter and Well-Known Local Character, Goes Back to Georgia.

Janesville's local harbinger of spring—the man who always sighted the first robin and sprung the first straw hat—has gone, leaving his post desolate and forlorn. Tom Butler, formerly porter at the Myers barber shop, bade farewell to friends at a depot journey to his old home in Augusta, Georgia. He is afflicted with heart disease and will probably never return to the north again. Tom is a musician of more than local fame and he fairly bubbled with good humor always, even when telling in whispers of his marvellous "musical heart" which played a perpetual tune, he claimed, and greatly puzzled the physicians.

Two Drunks in Court: R. Barber

paid \$1 and costs for drunkenness in municipal court today. F. A. Collins was fined \$4 and costs but sentence was suspended in order to enable him to leave the city post haste.

PRETTY WEDDING OF
MISS WILSON TODAY

Is Wedded to Clarence B. Smith This Afternoon—Laura Nehls Weds David Cochrane.

This afternoon at half after one o'clock, at the home of the bride's mother on South Jackson street, occurred the marriage of Helen Genevieve Wilson to Clarence B. Smith. The wedding was charming in its simplicity. Miss Bessie Buell presided at the door and the friends were received by the bride's mother. Rev. Robert Denison of the Congregational church performed the ceremony, which was witnessed by about fifty immediate friends. The bride was very becomingly gowned in a traveling suit of brown cloth, while the groom wore the conventional black. Following hearty congratulations a luncheon was served by young lady friends of the bride. The wedding is the culmination of a romance which started during the high school days of the bride and groom. Both are graduates of the Janesville high school of the class of 'ninety-nine. Miss Wilson is the only child of the late Mayor A. O. Wilson and Mrs. Lizzie G. Wilson. She is a young lady whose pleasant manner and bright disposition have won her a host of friends. Mr. Smith is the oldest son of Mr. and Mrs. E. F. Smith of Park avenue. He is an engineer on the Chicago & North-Western road and a young man of sterling qualities. Mr. and Mrs. Smith left on the thirteen train and were given an interesting farewell at the depot by their intimate friends. The happy couple will visit in Chicago, Omaha and Minneapolis and upon their return will go to housekeeping at 258 South Jackson street, where they will be at home after Nov. 6th. Among the guests from out of the city were Mrs. Hosmer Holland, Mr. and Mrs. Geo. Needham, Mr. Wm. Blinn of Rockford and Mrs. Henry Saunders of Omaha.

Nehls-Cochran Miss Laura Nehls, daughter of Mr. and Mrs. Laura Nehls, who live south of the city on the Partridge farm, was married this morning to David Cochrane, an employee of the Chicago & North-Western road. The ceremony was performed in Rockford, Miss Nehls and Mr. Cochrane going down on the 9:15 car. They will return this evening and a wedding supper will be served in their honor at the residence of Mrs. William A. Schultz, a sister of the bride, No. 2 Chestnut street. The wedding was a surprise to the family and friends of Miss Nehls and it was not until this morning the happy couple announced their intention of being married today. Miss Nehls is well liked by her many friends, who wish her all happiness in her married life. They will make their home with Mr. and Mrs. Schultz during the winter.

SPECTATOR WAS HURT
THE FOOTBALL PRACTICE

Young Man Named Briggs, Carrying Ball, Collided with Sixteen Year Old Arthur Linneman.

Sixteen year old Arthur Linneman was seriously injured while watching a practice game of football on Washington street Sunday afternoon. A young man named Briggs was carrying the ball at break-neck speed with head down and the Linneman boy was directly in his path. Neither observed the other in time and the spectator was bowled over, sustaining injuries to one of his shoulders and his body which made it necessary to carry him to his home on Racine street and summon a physician.

COMMUNICATION FOR
THE SCHOOL HOUSE

The Turtleville School House Question is Again Discussed by Letter.

Beloit, Wis., Oct. 13, 1905.

Editor Gazette: We notice in your issue of October 5th, a display of statements by C. W. Shmell in regard to school district No. 9, of the town of Turtle, and would like to correct some of the assertions, as he seems to be under the impression that we have no reasons to differ from the school board in regard to closing the school.

First he says that ninety per cent of the taxpayers are in favor of closing the school. This is a statement that we challenge him to prove. We believe that the number is about equal on both sides, and the vote at the last annual meeting we know was 21 in favor of opening the school on the first ballot, and 19 to 14 in favor of opening the school on the second ballot. In regard to the "floating population stirring up all this trouble," it is the school board that is causing it as we are but insisting on our plain rights as citizens. Further on he states that one or two property holders are in favor of having a school. The fact is that eight real estate owners residing in the district are in favor of a school and seven opposed, and we have an affidavit signed by twenty-seven voters in favor of opening the school out of a total of forty-four in the district. He further says that it would cost from \$455 to \$750 to place the building in good repair; to any one acquainted with the building this statement is too ridiculous to necessitate refutation, and it has been said by many that about \$25 will cover all necessary expenses.

It is thought by many that the Board is in a more dilapidated state than the building and are considerably more in need of repair. Plainly stated, our position is this: we have a large enough number of scholars to make an average school—16 pupils in number, and the majority of the people in the district are in favor of a school; therefore we believe it to be our duty to insist on having a school until the people want it discontinued.

This district was established long before the Turtleville distillery. According to Mr. E. P. Bostwick there was a school in this district over fifty years ago and Mr. Bostwick has lived in this same district for sixty years and also went to school here when but a boy. We maintain that the pride of our country is its common schools. We have lived in Rock county all our lives and believe that we are working for the best interests of all concerned in this matter, and no more than a son would desert the parent who had guided him in his infancy in an hour of need, will we renounce the institution which has guided our youth and which is the heritage of every young American.

Mrs. E. W. Lowell Has Letter from Her Daughter, Mrs. Hibbard, from Japan.

Mrs. E. W. Lowell has received a letter from her daughter, Mrs. Carlisle Hibbard, mailed in Japan. Mrs. Hibbard writes that her voyage over on the steamer Shawmut was very pleasant and that Mr. Hibbard met her on landing. Part of the letter was written on board ship and finished on shore. Mr. Hibbard returned from the scene of the war in July and both he and Mrs. Hibbard started immediately on her arrival for the Karuivawa mountains, where they will spend Mr. Hibbard's vacation. They will remain in Tokio, where they have lived since going to Japan. Mr. Hibbard still continuing in the work of the Y. M. C. A. there. Nothing was said relative to the conditions that exist in Japan since the war closed, but an interesting letter is expected later which will tell something of this feature of Japanese life.

PAUL BUCKHOLTZ HAS A MIRACULOUS ESCAPE IN A RUNAWAY ACCIDENT

On-lookers at Milton Station Expected to See Man Killed by Horse's Hoofs.

(Special to this Gazette.)

Milton, October 17.—Paul Buckholtz was the victim of a runaway accident Thursday. He was at the station with a load of beets and while removing the front end board the team was frightened by a train and ran. He did not have the lines in his hand and despite the fact that he flew up and down on the eve, with the heels of the horses playing around his head, escaped without serious injuries. On-lookers thought he would certainly be killed.

Life a Burden

There are times when life seems a burden—when you are tired, worn-out, have dull pains in the head and a continual feeling of uneasiness. You have no appetite, and your digestion is poor; your sleep is broken, and you get no rest.

Little annoyances seem great mountains of trouble, and you are blue, melancholy and given over to gloomy forebodings.

This means low vitality—exhausted brain nerves.

For this condition Dr. Miles' Restorative Nervine is a specific; it is a food for the nerves. It builds up the nervous system, and restores lost energy.

Try it to-day and see if your sleep is not sound and refreshing, and the morrow brighter and more hopeful.

"I am glad to announce that I have recovered my health, as far as my advanced age will permit, as I am 83 years old. My case was very bad; my nerves were all shattered. I suffered much pain and coldness; was weak and felt so sad and lonely and heart-broken. When I commenced taking Dr. Miles' Restorative Nervine, I was completely cured. I have taken the Restorative Nervine, Heart Cure and Nerve and Liver Pills, and they cured me."

MRS. E. C. WATERLOO, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

HEROES SECURE CARNEGIE GIFTS

Award for Relatives of Those Who Lost Lives to Rescue Others.

SILVER MEDAL TO YOUNG GIRL

High School Miss of Newark, N. J., Saves Companion From Death When Boat Overturns During Storm Near Yarmouth, Me.

Pittsburg, Pa., Oct. 17.—The Carnegie hero fund commission held an interesting meeting here Monday, and made ten awards. In gathering the data for these awards, George F. Campsey, special agent of the commission, traveled 12,000 miles and looked into fifty cases, forty of which were rejected. The ten cases taken up by the commission were passed on unanimously.

Miss Maude Titus, a high school girl of Newark, N. J., daughter of a practicing physician, was awarded a silver medal for life-saving July 4, 1904. At the risk of her own life she saved her chum, Laura V. Reifsnnyder of East Orange, N. J., from drowning. The two girls were on the yacht Romance, owned by Captain Burgess of Boston, and were in Casco bay, near Yarmouth, Me. A storm forced the party to take to boats. The one in which Miss Titus and Miss Reifsnnyder were was overturned. Miss Reifsnnyder could not swim, but her plucky little chum, Maude Titus, stayed with her, bringing her safely to shore. Miss Titus is but 16 years old.

Hatmaker Rescues Three.

Arthur A. Ross, a hatmaker of Foxboro, Mass., was given a medal for displaying great presence of mind and saving several lives near his home April 19, 1905. Joseph R. Gillis, Nellie A. Welsh and Mamie T. Welsh were thrown into a mill pond. Ross secured a row boat which lay bottom up on the bank and rushed into the water with it. He forced Gillis to hold calmly to the side of the boat, steadying it, while he pulled Mamie Welsh in by the hair and then pulled Nellie in. Gillis became excited and upset the boat, spilling all out. Ross then had to load the entire party in the boat again from under thirty feet deep. He saved the entire party. He is but 23 years old.

Reward for the Dead.

One of the most peculiar cases is that of Mr. Crabbe of Copper's Landing, Va. He is given a bronze medal and \$1,000 to educate his children because of the heroism of his wife, who lost her life Feb. 11, 1905. Mrs. Crabbe had seen a colored boy, Ralph Young, go through the ice on the Great Wicomico river and rushed to save him. She too, broke through the ice and was carried under and drowned. She left four small children and the family is very poor.

Daniel Davis, a coal miner, aged 23, of Sherodsville, Ohio, lost his life in the rescue of his brother-in-law, William Monroe. For his heroism the commission awarded him a silver medal and \$1,000 to be devoted to the purchase of a home or to be applied in any other manner for the support of himself and two children.

Dies to Save Miner.

On July 11, 1904, William Monroe, having charge of the steam and electric pumps of the Somers Mining company in the Sherodsville, Ohio, section, was overcome by gas in the old slope mine, and Davis, in spite of warnings, attempted a rescue. Monroe was saved, but Davis could not be restored to consciousness when brought to the outside.

Wade H. Plummer, aged 15, on May 7, 1904, on Lynch's river, near Lamar, S. C., saved a companion, John M. Gibson, aged 19, from drowning after a desperate struggle. The commission awarded him a silver medal and \$800 to be devoted to educational purposes.

Medal for Preventing Suicide.

A silver medal was awarded to Michael A. Doyle, a ship-laborer, aged 31, of Quebec, on April 28, 1904. Miss Charlotte L. De Kastner, aged 17, a student, attempted suicide by jumping into the St. Lawrence river. The water was between 30 and 35 feet deep and was filled with floating ice. Doyle plunged into the icy water after the girl and after getting her to the surface the second time both were pulled to shore by a rope thrown to Doyle.

Miss Anna Margaret Cunningham, aged 20, a nurse at the Savannah hospital, Savannah, Ga., was awarded a bronze medal for her part in the attempt to save from drowning on May 26, 1905, Walter Cutts, aged 21, an attorney of Savannah.

The commission awarded a bronze medal to William C. Brune, aged 17, a laborer, of Sandusky, Ohio, for saving from drowning George P. Pfanner, aged 9 years, on July 3, 1894.

Arthur J. Gottschalk, aged 24, a storekeeper of Lancaster, N. Y., was awarded a bronze medal for saving the life of Mrs. Joseph Webster, aged 35, of Detroit, who fell from the Crystal Beach company's pier at Berle, Welland, county, Ontario, Canada, on July 6, 1904, at 10:30 p. m.

George F. Russell, aged 24, a ship-fitter, of Croton, Conn., was awarded a bronze medal for saving the lives of three schoolboys whose boat had capsized with them off New London, Conn., on July 28, 1904.

Ohio Democratic Leader Dies.

Football Talk.

Yale's Team Has Several Heavyweights—Affairs at University of Pennsylvania.

With the addition of three or four 400 pound center men the outlook on the Yale football world has brightened materially. There are now on the squad the following heavyweights: Hendon, 218; Holloway, 203; Erwin, 205; Flanders, 203; and Tripp, 200. It was something of a surprise to find that Tripp and Flanders have gone steadily up in weight till they have crossed the 200 pound line. John Mack, Yale's new trainer, is making a reputation for expert conditioning at the start of the season. Under his tutelage the team has improved 100 per cent in condition within a week.

Aside from the above five players who send the scales past the 200 pound mark, there are three freshmen expected who, if they break through the Yale faculty rush line and pass cleanly all the examinations in their studies, will be listed as regular candidates, and all of them are over the 200 pound mark. They are Boggs and Paige of the St. Paul school and Anders of Lawrenceville academy. They are just the blocks needed to plug up the Yale line, and with them in it the line should prove once more of the stone wall type.

Several of the candidates are close up to 200 pounds in weight. Russell, the new guard, who hails from Worcester academy, tips the beam at 190 pounds. Tackle Forbes weighs 190 and Tackle Biglow about 185. Center Andrews weighs about 190. The two halfbacks, Quill and Levine, weigh 192 pounds each, and Substitute Center Smith weighs about 185 pounds. The c-ches are working with the definite end of making the team very fast, which would have been impossible with such a heavy team as that of last season.

The University of Pennsylvania has fairly good prospects of developing a team that will win from Harvard on Nov. 11, when the two universities meet on Franklin field. There is no elation, boasting or even much talk among those who are supposed to know and judge the ability of the old and new material, but the undisputed fact

DILLON OF PRINCETON CATCHING A PUNT remains that Pennsylvania will have as good, if not better, material to develop an eleven than any of the larger eastern colleges.

Pennsylvania suffered severely in the loss of Rollback Smith and Guard Plekarski. These men were without question the superior of any men playing on an eastern gridiron, and it is foolish to expect that the Quakers will find men who will competently and satisfactorily fill their places. Not only were they finds on defense, but they were kings in attack. In fact, they constituted 75 per cent of the Quakers' attacking power.

The other two men Pennsylvania loses by graduation are Butkewitz, tackle, and Drake, end. While both of these men were probably a little more than the average in ability their loss will not be felt so distinctly as that of Smith and Plekarski. Pennsylvania has Ziegler, guard; Lamson, tackle, and Weede, end, as a veteran nucleus for her rush line. All of these men are good, hard, seasoned players and will certainly be seen against the crimson if not prevented by accident.

Princeton is regretting the announcement that Roulon Miller, the crack fullback, will not return to college this fall owing to poor health. His loss will be a heavy blow to the Princeton eleven. Tenney, the quarter, is back, and McCormick, corners, Pfeifer and Morse are men of promise for the positions behind the line. Kirkpatrick, who was regarded as one of the best backs on the Princeton squad last fall, will also not return this fall. Helm, the quarterback, was drowned last summer, and this death is another one of the misfortunes which are weakening the Tigers' prospects.

Dillon is proving to be a capable left guard. He is a reliable kicker.

Columbia's Football Veterans.

Of the old men whom Columbia will have are the following from last year's first eleven: Thorpe, tackle; Echeverria, guard; Helmreich, halfback; Muir, end.

No mercury, no minerals, no danger in Hollister's Rocky Mountain Tea. The greatest family tonic known. Brings good health to all who use it. 35 cents. Smith Drug Co.

25,000 DOLLARS

AND FULL OF TRUE HUMAN INTEREST

This sum of money, \$25,000.00 will be given to any charitable institution if it can be shown that the story of Father John's Medicine is not true in every particular. This story, in brief is as follows:

Half a century ago Rev. Fr. John O'Brien of Lowell, Mass., through overwork and exposure, became seriously run-down, a cold and stubborn cough and lung trouble threatened his life. An eminent specialist gave Father John, as he was fondly called, a prescription to cure the cold and remove the lung trouble as well as to build up and strengthen the body. The clergyman began to improve at once, the cough disappeared and his lungs healed. It corrected his diges-

tion, made new tissue and Father John was soon restored to his former health and strength.

Father John recommended the medicine to his parishioners and friends and because of its merits it became the family remedy in thousands of homes, and it became known as "Father John's Medicine," having been so named by the people, and was advertised, all with the approval of Father John.

It will cure all throat and lung troubles, prevent pneumonia and consumption, and make flesh and strength if taken faithfully. It is not a patent medicine and does not contain alcohol or poisonous drugs. Guaranteed.

Do You Hesitate

CHAPTER I.

It was June, and a little past sunrise, but there was no hint of early summer freshness in the noxious air of the sleeping car as it toiled like a snail over the indurated prairie. From behind the green striped curtains of the berths now the sound of restless turning and now a long drawn sigh signified the uneasy slumber due to stifling air and discomfort. The only passenger stirring was a girl whose youth drooped under the unfavorable influences of foul air, fatigue and a strained anxiety to come to the end of this fateful journey. She had been up while it was yet dark, and her head, locked, strapped and as pitifully new at the art of traveling as the girl herself, clustered about the hem of her blue serge skirt like chicks about a hen. The engine shrieked, but its voice sounded weak and far off in that still ocean of space; the light tightened her grasp on the largest of the cushions and looked at the approaching porter tentatively.

"We're late twenty-five minutes," he reassured her, with the hopeless patience of one who has lost heart in curbing travelers' enthusiasms. She turned toward the window a pair of shoulders plainly significant of the burdensome last straw.

"Four days and nights in this train"—they were slower in those days—"and now this extra twenty-five minutes!" "My dear! My dear!"—a head in crimpers was thrust from between the curtains of the section opposite—"I've been awake half the night. I was so afraid I wouldn't see you before you got off."

The head was followed almost instinctively by a hand traveling furtively to the crimpers that gripped the lady's brown like barnacles clinging to a keel.

Mary expressed a relieved appreciation at the loss of rest in behalf of her early departure and conspicuously for bare to glance in the direction of the barnacles, that being a first principle as between woman and woman.

Again the locomotive shrieked, and the girl mechanically clutched the suit case, as presenting the most difficult item in the problem of transportation, and this time the shriek was not an idle formality. The train slowed down; the uneasy sleepers behind the green striped curtains stirred restlessly with the lessening motion of their uncouth cradle. The porter came to help her with the chubstained mien of one whose hopes of largess are small, the lady with the barnacles called after her redundant farewells, and a moment later Miss Carmichael was standing on the station platform looking helplessly after the train that toiled and puffed, yet seemed, in that crystalline atmosphere, still within arm's reach. She watched it till its floating pennant of smoke was nothing but a gray feather blowing farther and farther out of sight on the flat prairie.

The town—it would be unkind to mention its name—had made merry the night before at the comprehensive invitation of a sheepman who had just disposed of his wool clip and who said, by way of general summons, "What's the use of temptin' the bank?" "Town," therefore, when Mary Carmichael first made its acquaintance, was still sleeping the sleep of the unjust. Those among last night's roisterers who had had to make an early start for their camps were well into the foothills by this time and would remember with exhilaration the cracked tinkle of the dance hall piano as inspiring music when the loneliness of the desert menaced and the young blood again clamored for its own.

"Town"—it contained in all some two dozen buildings—was very unlovely in slumber. It sprawled in the lap of the prairies, a grimy faced wretch, with the lines of dismal sophistication writ deep. Yet where in all the "health resorts" of the east did air sweep from the clean hill country with such revivifying power? It seemed a glad world of abiding youth. Surely "Town" was but a dreary illusion, a mirage that hung in the unmapped spaces of this new world that God had made and called good, an omen of the abominations that men would make when they grew blind to the beauty of God's world.

Mary Carmichael, with much the feelings of a cat in a strange garret, wandered about the squalid town, and presently the blue and white sign of a telegraph office, with the mythological figure of a hastening messenger, suggested to her that a reassuring telegram was only Aunt Adelaide's due. Whereupon she began to rap on the door of the office a scared pianissimo, which naturally had little effect on the operator, who was at home and asleep some three blocks distant. But the west is the place for woman if she would be waited upon. No. 7 to 1 ratio of the sexes has tempered the chivalry of her sons of the saddle. A jostling something in a smothered saw rather than heard the rapping; and, at the sight, went in quest of the dreaming operator without so much as embarrassing Miss Carmichael with an offer of his services. And presently the operator, whose official day did not begin for some two hours yet, appeared, much disheveled from running and the cursory nature of his toilet, prepared to receive a message of life and death.

The wire to Aunt Adelaide ran: Practically at end of journey. Take stage to Lost Trail this morning. Well. Don't worry about me. MARY. And the telegraph operator, dimly

remembering that he had heard of Lost Trail was a "pizen mean country," and that it was tucked some 200 miles back in the foothills, did not find it very hard to forgive the girl who was "practically at end of journey," particularly as the dimple had come out of hiding and he had never been called upon to telegraph the word "practically" before. He was a progressive man and liked to extend his experiences.

After sending the telegram, Miss Carmichael drew from her pocket a square envelope of heavy Irish linen, a little worn from much reading, but prominently an envelope that bespoke elegance of taste on the part of her correspondent, and read:

My Dear Miss Carmichael—Please let me assure you of my gratification that the preliminaries have been so satisfactorily arranged and that we are to have you with us by the end of June. The children are profiting from the very anticipation of it, and it will be most refreshing to all of us isolated ones to be able to welcome an eastern girl as a member of our family.

Although the long journey across the continent is trying, particularly to one who has not made it before, I hope you may not find it utterly fatiguing. Please remember that after leaving the train it will be necessary to take a stage to Lost Trail. If it is possible, I shall meet you with the buckboard at one of the stage stations; otherwise, keep to the stage route, being careful to change at Dack's ranch.

Unfortunately the children vary so in their accomplishments that I fear I can make no suggestions as to what you may need to bring with you in the way of text books, but I think you will find them fairly well grounded.

I had a charming letter from Mrs. Kirkland, who said the pleasantest thing possible of you. I am glad the wife of our senator was able conscientiously to commend us.

With our most cordial good wishes for a safe journey, believe me, dear Miss Carmichael, sincerely yours,

SARAH YELLETT.

In the meantime "Town" came yawning to breakfast. It was not so praiseworthy as it had been the night before, when it accepted the sheepman's broad gauge hospitality and made merry till the sun yawned from behind the mountains. It made its way to the low, shackle eating house with a pre-breakfast solemnity bordering on sulkenness. Not a perturbed was in sight to offset the spurs and somberness that fled in to breakfast from every point of the compass, prepared to eat primitively, joke broadly and quarrel speedily if that sensitive and often inconsistent something they called honor should be brushed however lightly.

But the eternal feminine was within, and, discovering it, the temper of "Town" was changed. It ate self consciously, made jokes meet for the ears of ladies and was more interested in the girl in the sailor hat than it was in remembering old feuds or laying the foundations of new.

In its interior aspect the eating house conveyed no subtle invitation to eat, drink and be merry. On the contrary, its mission seemed to be that of confounding appetite at every turn. A long, shackle room it was, with walls of unpainted pine still sweating from the ax. Festoons of scalloped paper in conflicting shades hung from the ceiling, a menace to the taller of the guests. On the rough walls some one, either prompted by a latent spirit of aestheticism or with an idea of abetting the town toward merrymaking, an encouragement it hardly required, had tacked posters of shows, mainly representing the tank and sawmill school of drama.

Miss Carmichael sat at the extreme end of the long, oilcloth covered table, on which a struggling array of salt and pepper shakers, catchup bottles and divers commercial condiments seemed to pause in a discouraged march. A plague of flies was on everything, and the food was a threat to the hardest appetite. One man summed up the steak with, "You got to work your jaw, so hard to eat it that it ain't fair to the next meal."

His neighbor heaved a sigh. "This here formation, whatever it be"—and he turned the meat over for better inspection—"do shows round me of an unconstructible doll that an old maid ought to mine give my sister when we was kids. That doll sort of challenged me, an' one day I ups an' has a claw at her. She war unconstructible, all right. 'Fore I concluded my specimens I had left a couple of teeth in her."

"Well, I discards the steak an' draw to a pair of aces." And the first man helped himself to a couple of biscuits.

Miss Carmichael knew, by the continual scraping of chairs across the gritty floor, that the places at the table must be nearly all taken, and, while she anticipated, with an utterly unreasonable terror, any further invasion of her seclusion at the end of the table, still she could not persuade herself to raise her eyes to detect the progress of the enemy, even in the interest of the diary she had kept so conscientiously for the past three days, which was something of a loss to the diary, as those untamed, manly faces were well worth looking at. Reckless they were in many instances and sometimes the lines of barbarism were cruelly white across young faces that had not yet lost the down of adolescence, but there were humor and endurance and the courage that knows how to make a crowsy of death and get right good sport from the comradeship. Their faults were the faults of lusty, red blooded youth, and their virtue, the open handed generosity, the ready sympathy of those uncertain titlers at life who ride or fall in the journey of a new country.

At present the yearling, drinking her execrable coffee in an agony of embarrassment, weighed heavily on their minds. They would have liked to rise as a man and ask if there was anything they could do for her. But as a glance toward the end of the table seemed to increase her discomfort, they did the kindest and for them the most difficult thing and looked in every direction but Miss Carmichael's. With a delicacy of perception that the casual observer might not have given them credit for they had refrained from taking seats directly opposite her or those immediately on her right, which, as she occupied the last seat at the table, gave her at least a small degree of seclusion.

As one after another of them came fling in, bronzed, rugged, radiating a beauty of youth and health that no sketchy exigence of apparel could obscure, some one already seated at the table would put a foot on a chair or posit him and send it spinning out into the middle of the floor as a hint to the newcomer that that was his reserved seat, and the cow puncher, sheep herder, prospector or man about town, as the case might be, would take the hint and the chair, leaving the petitioner separated from the somberness by a tablecloth of oilcloth and a range of four chairs.

But now entered a man who failed to take the hint of the spinning chair. In fact, he entered the eating house with the air of one who has dropped in casually to look for a friend and in a dazed way, he scanned the table with deliberation and started to make his way toward Mary Carmichael with something of a swagger. Some one kicked a chair toward him at the head of the table. Some one else nearly upset him with one before he reached the middle.

But the man made his way to the end of the table and drew out the chair opposite Miss Carmichael, with a degree of assurance that precipitated the rest of the table into a pretty pother.

Suppose she should countenance his audacity? The fair have been known to succumb to the headlong force of a charge when the persistence of a long siege has failed signally. What figures they would cut if she did! And Simpson, of all men! A growing tension had crept into the atmosphere of the eating house. Knives and forks played, but intermittently, and Mary, sitting at the end of the oilcloth covered table, felt intuitively that she was the center of the brewing storm.

"From the look of the yearling's chin I think he'll get all that's coming to him," whispered the man who had nearly upset him with the second chair. The man Simpson was not a pleasant vis-a-vis. He wore the same picturesque vulgarity of apparel as his fellows, but the resemblance stopped there. He lacked their dusky bloom, their clearness of eye, the suppleness and easy flow of muscle that is the hall mark of these frontiersmen. He was fat and squat and had not the rich bronzing of wind, sun and rain. His small black eyes twinkled from his puffy white face like raisins in a dough pudding.

He was ogling Mary amiably when the woman who kept the eating house

who had sacrificed milk teeth investigating the indestructible doll.

"Seems to me that the system he's playing lacks a heap of science. My money's on the yearling." And the man who had discarded the steak and drawn to the biscuits, leaned a little forward that he might better watch developments.

Simpson by this time fully realized his error, but failure before all these bantering youngsters was a contingency not to be accepted lightly. As he phrased it to himself, it was worth "another throw." "Seems kind o' lonesome not having any one to talk to while you're eatin', don't it?"

Miss Carmichael's air of perfect composure seemed a trifle out of tune with her surroundings. The nice elevation of eyebrow, the slightly questioning curl of the lip as she, for the first time apparently, became aware of the man opposite seemed to demand a prim drawing room rather than the atmosphere of the slouching eating house.

"Well, really, I've hardly had a chance of finding out." And her eyes were again on her coffee cup, and there was joy among the men at table that they had not rushed in after the manner of those who have a greater courage than the angels.

"No offense meant," deprecated Simpson, with an uneasy glance toward the other end of the table, where the men sat with necks craned forward in an attitude straining at the least. Simpson felt rather than saw that something was afoot among the somberness. There was a crowding together in whispered colloquy; and in a flash some half dozen of them were on their feet as a man, descending upon Simpson, they lifted him, chair and all, to the other end of the table, as far removed as possible from Miss Carmichael.

The man who thought Simpson's system lacked science rubbed his hands in delight. "She took the trick all right; swept his hand clean off the board!"

FALLS SIX STORIES UNHURT

New York, Oct. 17.—John Underhill, busily laying brick at the top of the six-story building under construction at Central Park west and Sixty-third street, startled by an automobile "honk," looked down. In the act he lost his footing and fell. At the fourth story he struck a jutting beam, bounded off, only to strike another beam which projected from the second story, and next struck the sidewalk. A hundred frightened spectators rushed to his aid. Underhill, with a look of annoyance, arose, brushed the dust from his clothes, climbed back to the sixth story and began laying brick.

Height Regulates Fare. New York, Oct. 17.—The Swiss railroad booking clerks have been provided with machines for measuring the height of children traveling over their roads and have been told that all children over three feet tall must pay full fare.

Inspect Oil Fields. New York, Oct. 17.—A party of Standard Oil company officials, headed by Henry H. Rogers and John D. Archbold, is inspecting the oil fields of West Virginia, Ohio, Indiana, Kansas and Indian territory.

German Defeat Hottentots. Berlin, Oct. 17.—It is officially announced that in two fights between German troops and Hottentots in Southwest Africa the Hottentots lost sixty men, while one German was killed and six wounded.

Purse Snatcher a Murderer. Toledo, Ohio, Oct. 17.—Alfred Fisher, aged 22, who was shot in the abdomen by a negro purse snatcher whom he had driven to bay, is dead.

Find Body of Woman. Indianapolis, Ind., Oct. 17.—The body of Miss Nellie Ryan, aged 40, who disappeared twelve days ago, has been found in White river.

"From the east, I take it," brought him his breakfast. Mrs. Clark was a potent antidote for the prevailing spirit of romance even in this forsaken country. A good creature, all homely, Roman nose, and shrewd elbows, she brought him his breakfast with an ill grace that she had not shown to the others. The man about the table gave him scant greeting, but the absence of enthusiasm didn't embarrass Simpson.

He lounged expansively on the table, regarding Miss Carmichael attentively meanwhile, then favored her with the result of his observations. "From the east, I take it." And the dumpling face screwed into a smile whose mission was pacific.

Every knife and fork in the room suspended action in anxiety to know how the "yearling" would take it. Would their chivalry, which strained at a gnat, be compelled to swallow such a conspicuous camel as the success of Simpson?

But Miss Carmichael merely continued her breakfast, and if she heard the amiable deductions of Simpson regarding her she gave no sign. But in a rebuff to him was in the nature of an appetizer, a fillip to press the acquaintance. He encroached a bit further on the narrow limits of the table and continued, "Nice weather we're having." Miss Carmichael gave her undivided attention to her coffee. The spurs and somberness, that had not relaxed a muscle in their strained observation of the little drama, breathed reflectively. "He shows is showing himself to be a friendly native," commented the man

who had sacrificed milk teeth investigating the indestructible doll.

GRAND

FALL OPENING

October 18th, 19th, 20th, 21st.

To properly bring before people our immense new stock of *Fall and Winter Merchandise*, we will have an *opening and display* from *Wednesday, the 18th, till Saturday, the 21st.*

The opening was delayed owing to important changes made in our windows. It will afford all who can attend an excellent opportunity to see *The Big Store at its best* and also see the *new fall goods* of which we have received *many thousands of dollars worth*; each department plays its part in making up a stock which for *completeness* cannot be approached by any dry goods house for *seventy miles* in any direction. We will endeavor to make our store and windows resplendent with beautiful goods and accessories necessary to carry out the elaborate ideas that our trimmer has in mind and has been planning for several weeks past.

Enchanting music will emanate from Kneff's orchestra Wednesday and Saturday afternoons from 2 to 5 o'clock, and evenings 7 to 9 o'clock. There will be much of interest to delight the eye and tickle the fancy.

A 38c Ribbon Event

Rich, Imported Floral Ribbons. To fittingly inaugurate the opening we will make a *special sale of Warp Print Ribbons*. They are extra wide, the loveliest creations it has ever been our good fortune to offer and includes ribbons that are worth 50c to \$1.25 a yard. Wednesday sale price 38c

AMERICANS IN CHINESE HAREM

Continued from page 1.

nd Victoria St. Amour, waitresses, who were induced to come to Chicago four years ago from Montreal, met the same fate. The names of ten or more young women in Chicago and other cities who have disappeared have been shipped to Shanghai and become slaves, are in the possession of Inspector J. W. Burst of the Chinese immigration bureau. The government says it must rely upon the police and state authorities for punishment; the progress because there is no federal law against exporting women for immoral purposes. American Consul James L. Rodgers at Shanghai has enlisted the cooperation of English and Chinese authorities in that city and evidence of the sale of many American and Canadian girls has been procured. The authorities have unquestionable proof of the incarceration of at least a dozen out of forty-nine. It is known that Hilda Anderson, aged 20, committed suicide after learning the purpose of being sent to China. They have lost trace of many who have been sold by one master after another until they are so far into the interior it is possible to locate them. Chinese girl slaves bring from \$250 to \$400. The American girls, betrayed into the hands of rich Chinese by two women, bring from \$500 to \$1,000, the price ranging according to the beauty and accomplishments. Two of the intended victims escaped at Shanghai and sought refuge in a place frequented by American and English sailors. They told an officer of the United States navy their experiences.

Real Logic.

Not long ago there was talk of placing a clock in the tower of a certain village church.

John X—, the old sexton, declared himself "dead agin it," and expressed the opinion that it would entail "a sad waste o' brass."

"We wants no clocks," he said. "We've done without clocks up to now, an' we shall manage. Why, lyin' 't my bed of a morning I can see the time by the sundial over the porch."

"Yes," said one who approved of the scheme, "that is all right as far as it goes. But the sun doesn't shine every morning. What do you do then?" "Why," replied John, "as if surprised at the question, 'I knows then as it ain't fit weather to be out o' bed, an' I just stops wheer I is!'"—London Tit-Bits.

The Jerry Builder.

There is a remarkable provision in the code of Hammurabi which deals with a dishonest builder whose work falls down. "If he has caused the son of the owner of the house to die, one shall put to death the son of that builder."
